Please upload your midterm report in PDF here.

Please see below for the format (also in the syllabus)

The Midterm Report. This refers to a basic description for the final project based
on the early-stage presentation. It needs to include

(i) a title,

(ii) a main figure produced in Python,

(iii) the legend explaining the visualization components in the figure (e.g., what points, lines, and colors stand for), and

(iv) findings text introducing highlights of the produced figure in bulletin points.

One page in PDF containing these four components is required to be submitted due before the week-7 class.
